

Science in 60: Lanza describes meteorite hunt in Antarctica

December 11, 2015

[Science in 60: Lanza describes meteorite hunt in Antarctica](#)

There are plenty of attempts at making science accessible. Researchers have tried to use simple words, interpretive dance, or really cool videos to explain complex scientific concepts. This new one might have all of those beat, at least when it comes to speed.

Los Alamos National Laboratory has unveiled a video where they challenged staff scientist Nina Lanza of LANL's Space and Remote Sensing group describe her upcoming trip to Antarctica to hunt for meteorites in just 60 seconds.
